	<p>d) The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.</p> <p>The Underlying Index i.e. Nifty Total Market Index complies with the aforesaid portfolio concentration norms.</p> <p>Change in Investment Pattern Portfolio rebalancing due to short term defensive consideration : Any alteration in the investment pattern will be for a short term on defensive considerations as per paragraph 1.14.1.2.b of the SEBI Master Circular dated June 27, 2024, the intention being at all times to protect the interests of the Unit holders and the Scheme shall rebalance the portfolio within 7 calendar days from the date of deviation. Investment Strategy	<p>The Scheme will be passively managed index fund which will follow an investment approach designed to track the performance of Nifty Total Market TRI. The Scheme seeks to achieve this goal by investing in securities constituting the Nifty Total Market Index in the same proportion as in the Index. The AMC does not make any judgement about the investment merit of the individual security constituting the Nifty Total Market index nor will it attempt to apply any economic, financial or market analysis. Indexing eliminates active management risks with regard to over/ underperformance vis-à-vis a benchmark. This would be done by investing in all the stocks comprising the Nifty Total Market Index in approximately the same weightage that they represent in Nifty Total Market Index. The Scheme will invest at least 95% of its total assets in the securities comprising the Underlying Index. The Scheme may also invest in Money Market Instruments to meet the liquidity and expense requirements.</p> <p>The Scheme shall follow a passive investment strategy. The performance of the Scheme may not be commensurate with the performance of the benchmark of the Scheme on any given day or over any given period. Such variation is commonly referred to as the Tracking Error. The investment strategy would revolve around reducing the Tracking Error</p>

	<p>to the least possible through regular rebalancing of the portfolio, taking into account the change in weights of the securities in the index as well as the incremental Subscriptions/Redemptions from the Scheme.</p> <p>The Scheme intends to use Derivatives for purposes that may be permitted by the SEBI MF Regulations from time to time. Derivatives instruments may take the form of Futures, Options or any other instrument, as may be permitted from time to time. For detailed Derivative strategies, please refer to SAI.</p> <p>Procedure and recording of investment decisions and risk control</p> <p>All investment decisions relating to the Scheme will be undertaken by the AMC in accordance with the Regulations and the investment objectives specified in this Scheme Information Document. All investment decisions taken by the AMC along with justification in relation to the Scheme shall be recorded.</p> <p>The designated fund manager of the Scheme will be responsible for taking the day-to-day investment decisions and will <i>inter alia</i> be responsible for asset allocation, security selection and timing of investment decisions.</p> <p>The Scheme may invest in other schemes managed by the AMC or in the schemes of any other mutual fund, provided it is in conformity to the investment objectives of the Scheme and in terms of the prevailing Regulations. No investment management fees will be charged for such investments and the aggregate inter-scheme investment made by all schemes of the Mutual Fund or in the schemes under the management of other asset management companies shall not exceed 5% of the Net Asset Value of the Mutual Fund. The limit, however, does not apply to any Fund of Funds scheme.</p> <p>PORTFOLIO TURNOVER</p> <p>As the Scheme will follow a passive investment strategy, the endeavor will be to minimize portfolio turnover subject to the exigencies and needs of the Scheme. Generally, as the Scheme is open-ended, turnover will be confined to rebalancing of portfolio on account of new Subscriptions, Redemptions and change in the composition of the Nifty Total Market Index. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.</p> <p>A higher churning of the portfolio could attract high transactions of the nature of brokerage, custody charges, etc.</p>
Risk Profile of the Scheme	<p>Mutual Fund Units involve investment risks including the possible loss of principal. Scheme specific risk factors are summarized below:</p> <p>Risks associated with investing in companies constituting Nifty Total Market index :</p> <p>The Scheme attempts to track its benchmark index and would invest in the securities constituting the index regardless of their investment merit. As such, the Scheme is exposed to certain specific risks relating to the index as given below :</p> <ul style="list-style-type: none"> • Performance of the Underlying Index (viz. Nifty Total Market Index) will have a direct bearing on the performance of the Scheme. In the event when the Underlying Index is dissolved or is withdrawn by NSE Indices Limited (NSEIL) or is not published due to

	<p>any reason whatsoever, the Trustee reserves the right to modify the Scheme so as track a different and suitable index and appropriate intimation will be sent to the Unit holders of the Scheme. In such a case, the investment pattern of the Scheme will be modified suitably to match the composition of the securities that are included in the new index to be tracked and the Scheme will be subject to Tracking Errors during the intervening period, subject to applicable SEBI MF Regulations.</p> <ul style="list-style-type: none"> • Tracking Errors are inherent in any index fund and such errors may cause the Scheme to generate returns which are not in line with the performance of the Underlying Index or one or more securities covered by / included in the Underlying Index. Such errors may arise from a variety of factors including but not limited to, any delay in the purchase or sale of securities due to illiquidity in the market, settlement and realisation of sales proceeds, delay in credit of securities or in receipt and consequent reinvestment of Dividends, etc. Under normal circumstances, such Tracking Error is not expected to exceed 2% per annum. It needs to be clearly understood that the actual Tracking Error can be higher or lower. • The Underlying Index reflects the prices of securities at a point in time, which is the price at close of Business Day on the National Stock Exchange of India Limited (NSE). The Scheme, however, may trade in these securities at different points in time during the trading session and therefore the prices at which the Scheme trades may not be identical to the closing price of each scrip on that day on the NSE. In addition, the Scheme may opt to trade the same securities on different exchanges due to price or liquidity factors, which may also result in traded prices being at variance, from NSE closing prices. • NSEIL undertakes periodic reviews of the securities that are represented in the Nifty Total Market Index and from time to time may exclude existing securities or include new ones. In such an event, the Scheme will endeavor to reallocate its portfolio to mirror the changes. However, the reallocation process may not occur instantaneously and permit precise mirroring of the Nifty Total Market Index during this period. • Being an open-ended scheme, the Scheme may hold appropriate levels of cash or cash equivalents to meet ongoing Redemptions. The Scheme may not be able to acquire or sell the desired number of securities due to conditions prevailing in the securities market, such as, but not restricted to: circuit filters in the securities, liquidity and volatility in security prices. • In case of investments in Derivatives like index futures, the risk reward would be the same as investments in portfolio of shares representing an index. However, there may be a cost attached to buying an index future. Further, there could be an element of settlement risk, which could be different from the risk in settling physical shares and there is a risk attached to the liquidity and the depth of the index futures market as it is relatively new market. • Currency Risk: Companies within the index may have exposure to foreign currencies through international sales, imports, or foreign exchange contracts. Currency fluctuations can impact the earnings and cash flows of these companies, affecting the performance of the Scheme. • Regulatory and Environmental Risk: Companies within the index may be subjected to regulatory requirements related to environmental protection, safety standards, labor practices, and land acquisition. Changes in regulations or compliance issues can affect

	<p>production costs, supply chains, and profitability, impacting the Scheme's performance.</p> <ul style="list-style-type: none"> • Technological Disruption: Advances in technology, such as automation, robotics, and renewable energy, can disrupt supply chains, affecting the competitiveness and profitability of the companies held in the index which will have a direct bearing on the performance of the Scheme. • Corporate Governance Risks: Weak corporate governance practices, such as inadequate board oversight, conflicts of interest, or related-party transactions, can undermine shareholder value and increase the risk of fraud, mismanagement, or regulatory scrutiny, affecting the Scheme's returns. <p>Investments in the Scheme are subject to various risk factors, including but not limited to risks associated with :</p> <ul style="list-style-type: none"> ✓ Tracking Error and Tracking Difference ✓ Investing in equities and equity related securities ✓ Passive investments ✓ Settlement Risk ✓ Portfolio Concentration Risk ✓ Volatility Risk ✓ Right to limit redemptions ✓ Investing in Money Market Instruments ✓ Portfolio rebalancing ✓ Investing across market capitalizations ✓ Investing in Derivatives ✓ Stock Lending ✓ Segregated portfolio ✓ Trading through mutual fund platforms of BSE and/or NSE ✓ Investing in Government of India securities ✓ Investing in TREPS segment <p>Please read the SID carefully for details on risk factors and risk mitigation strategies before investment.</p>
